Back as in the original 8-bit guy. The World Series of Poker. As if anyone else cared about him. As we all know by now, the WSOP was in Las Vegas earlier this year. I believe more than a few of you live in the area, so you saw it. Here's a few short videos to get you thinking. -Cory is back. He's kind of stealing the show, by taking on eight of the world's best poker players head on, with a game of no-limit Texas Hold 'Em. His in-game demeanor is priceless. -Jules took the first round off, and that's good for about three full minutes of him playing. No offense to Jules. -The sure-to-be-controversial King Card. Big money at the WSOP for this one. He made it to Day Two. -We've mentioned this before, but since he's essentially bankrupt, it's no longer a fundraiser, but a cautionary tale. Once he was one of the most loved professional poker players in the world, now he's bankrupt and living with his girlfriend. Hard lessons to learn. -And of course, some more poker. A close call for the top seed in the event, Daniel Negreanu. He was down a lot and in a tough spot, but his brilliance and his ability to manage his stack was enough to see him through. - a1d647c40b

A new HBO miniseries from David Simon, creator of *The Wire*, is set to premiere next year. According to *Variety*, *Vinyl* is a 10-part drama that will cover the rise of hip-hop in the 70s and 80s. Written and directed by Simon, the miniseries will focus on the rise of hip-hop in the 70s and 80s as told through the music, culture and politics of that time. The cast includes Ving Rhames, Ossie Davis, Jennifer Hudson, Orlando Jones, Ed Harris, Nelsan Ellis, Bill Nunn, Adepero Oduye, Domenick Lombardozzi, and Michael B. Jordan. Here's a description from HBO: "VINYL is a 10-part, epic documentary miniseries that follows New York City's most innovative music scene from the birth of hip-hop to the burgeoning blackout of 1977, in a neon, razor-edged chronicle of the rise of rap as a cultural force, and a virtual tour through the intersection of hip-hop and American culture." This is the first time Simon has made a miniseries. *The Wire*, which ran on HBO for five seasons and won eight Emmy Awards, earned him a Peabody Award and a MacArthur Fellowship. Simon told *Variety* that he's been working on the project for about two years. In 2011, he told *Time Out London* that he sees *Vinyl* as "a very good way to take on that 'the guy who made *The Wire*' conversation" because *The Wire* is the "one thing that everyone who's covered hip-hop wanted to know about."
