What's New In AutoCAD?

Markup auto-correction: When you select more than one object, AutoCAD can combine the best of both worlds with Markup Assist. Use multiple objects to help AutoCAD to correct the spelling or grammar of a word. Then use the checkboxes to select the checkboxes to see what was corrected. (video: 1:10 min.) Ease of use: Never doubt the power of a single button. With new commands, enhancements and improved functionality, it's easier than ever to perform the most complex drawing tasks. (more) Energy Efficiency and Hardware Acceleration: AutoCAD isn't only faster but also faster-to-start-up and consumes less energy and less hardware. (more) Workspace Editor: The Workspace Editor is a way to quickly edit multiple objects in a drawing and compare them. Once you start the Workspace Editor, it's quicker to add, move, modify or delete the objects. New in AutoCAD 2023, the Workspace Editor also lets you run scripts as you work. (video: 2:37 min.) More Technology Features: With new technology, AutoCAD is more than just a drawing program. We are always innovating and experimenting to give you new ways to work and collaborate in the cloud and on the go. (more) Cloud: AutoCAD now offers the power and flexibility of a desktop-based application, but in a cloud-based model. (more) Cloud-based data: We are making it easier than ever to view, edit and manage your data. (more) Offline Support: Multi-device support: You can share a drawing project with multiple colleagues, and automatically adjust it so that everyone can work on it at the same time. (more) Multi-device support: You can share a drawing project with multiple colleagues, and automatically adjust it so that everyone can work on it at the same time. With this new feature, when one user makes a change, all users can see it in real time, without waiting for another user to make changes to the drawing. (more) Native Custom Views for 3D Modeling: Custom views for 3D modeling make it easier to work with the complex surfaces of 3D models. You can create custom views that
