This is the code I have so far: CREATE FUNCTION [dbo].[CountRows](@id int) RETURNS int AS DECLARE @COUNT int SET @COUNT = (SELECT COUNT(*) FROM [dbo].[Attribute]) RETURN @COUNT This code doesn't work but I can't figure out how to get it to. Can anyone help please? A: Try this code : CREATE FUNCTION [dbo].[CountRows](@id int) RETURNS int AS BEGIN SET NOCOUNT ON; SELECT COUNT(*) FROM Attribute a WHERE a.id = @id; RETURN 1 END This function will work only if the table "Attribute" has a primary key named "id". Badger Hill Natural Area Badger Hill Natural Area is a natural area in the Town of Pennington, New Jersey on the banks of the South Branch of the Raritan River. It is open to the public for free. History and wildlife The area is one of four remaining habitats for one of the world's rarest mammals, the gray wolf. It is a component of the Town of Pennington and Raritan River Valley National Heritage Corridor. The area is home to the critically endangered rare wedge-billed woodpecker, crab-eating raccoon, rufous hare's ear, great blue heron, and
