What's New in the?

Allows you to import notes or you can start from scratch Although not truly portable, the app does not require complicated setup or configuration. In fact, if you happen to already have a list of tasks from previous utilities saved in a plain text format, you can import it. Nevertheless, the program enables you to start a fresh list where you can simply add tasks and notes without too much hassle. It is worth mentioning that the app is designed on the todo.txt concept and therefore, your tasks can include context. The app comes with a basic filtering system where you can easily search for memos that feature various keywords. As you would expect, the app allows you to set a due date and sends notifications as soon as the said date approaches. While the app does not feature cloud synchronization, a feature that you are likely to find with similar tools, let's keep in mind that you can move your todo.txt file on cloud or other devices. Since this is a plain text file, you can easily modify it even with basic text editors. Works with keyboard as well as touch devices If you are a relatively active person and typically find a lot of stuff to do, there is a good chance that you may want a straightforward way to add them to your notes. According to the developer, the app enables you to add notes with anything that is handy, meaning here mouse and keyboard, keyboard alone as well as touch devices. First and foremost, the app is built using Todo.txt. This means that you get the same context that was used to build the original tools, which is a definite plus. It does feature a configurable option that you can set to run a task editor when you perform a new task, but for the most part, it is fairly easy to use. This means that there is no need to explain how to use it. If you are familiar with the main todo.txt concept, then the app should be able to take care of your needs, but even if you are new to the app, the interface should be fairly easy to grasp. Once you have selected your task, you can simply write down the notes, set the due date and even add a context or set a reminder. If you have a lot of tasks in your list, the app does provide you with a customizable view of the tasks. Here, you can add tags and filter your list according to the tags. Since the app is fairly straightforward, you will never have to wonder how to use it. It is worth mentioning that the app allows you to export notes in a variety of formats, which may include plain text, HTML, PDF and even CSV. If you prefer to manage tasks using nothing more than a keyboard, then you can access your notes from any other device. The app also provides you with push notifications,
