Then open the exe file with notepad and search for this code ""Z7\$Hbl\$HYL\$yS04\$a7Lg6j9\$tY2YI40X "" and replace it with this code ""C9\$3TPF\$0MW\$DP17\$tY2YI40X "" This way the file can be activated without any problems. Q: Embedded cassandra - only one node can access to a storage I am using embedded cassandra with the following configuration (that works fine for me): storage_port: 9000 in_memory_consistency: all However, if I have only one server, I can't change the configuration without I stop the service. Is there any solution? A: If you only have one node running, then it is not possible to use any of the caching options (memtable_flush_writers, stale_writes_ttl, etc) because the node would not be able to write anything to disk. If you are using a dedicated node for the storage, I would suggest adding another node to your cluster so you can switch to a caching write policy. As the debate continues on the issue of same-sex marriage in New York, a few big-name Democrats are jumping on the bandwagon and voicing their support for gay marriage. Assembly Speaker Sheldon Silver said he is "very, very" comfortable with same-sex marriage and claims his only issue is that it be done in a manner that is "equal and respectful" of New York's different religious communities. ADVERTISEMENT Silver clarified that his support for gay marriage is in no way an effort to bring up the issue of gay marriage before the voters. "This is not a campaign issue. It has nothing to do with anything other than the dignity of all people," Silver explained to the New York Times. "That's my view. This is not a campaign issue." The announcement comes from an unlikely source, as Silver is a Jewish politician who supports traditional marriage. After Silver's announcement, U.S. Sen. Chuck Schumer (D-NY) jumped on the same-sex marriage bandwagon, saying that the issue is more about equality than a

Markup Assist is also available to save you the hassle of marking up multiple documents, whether you're inputting your work in Revit, AutoCAD, SketchUp or BIM 360 modeling software. In Autodesk's new Markup Assistant, you can create in Revit or AutoCAD a document containing all the information you need for your project. All your hard work will be organized and ready to go. Multi-Context Strokes: You can now use the same AutoCAD drawing context in any of its multi-context layers (visible and hidden layers, including sheet views). Multi-Context strokes are like Layer Strokes, but also contain drawing information. They are automatically placed in the right context for you, so you don't need to select them every time. You can now load any drawing into multiple contexts, which means you can see context-specific elements at a glance. When multiple drawings are open in the same window, you can now see context-specific elements at a glance. With multi-context strokes, you can now see context-specific elements at a glance. Highlights now show up in multiple drawing contexts. Smart Guides: Ever wish you could have both a paint bucket and a pencil on your drawing canvas? With Smart Guides, now you can. These smart object guides allow you to draw or mark in a variety of ways, depending on the pen tool you select.
